

RESIDENTS TO RECEIVE NOPEC ELECTRIC ENROLLMENT LETTERS

Starting in April, eligible residents and small businesses will begin receiving enrollment letters for NOPEC's electric aggregation program for the term beginning with their June 2026 meter read date. Serving almost 1,000,000 Ohio residents and small businesses in 250 communities, NOPEC uses bulk buying to negotiate competitive electric and natural gas supply rates.

Eligible residents and small businesses that want to join or remain with NOPEC do not need to take any action. They will automatically be enrolled in NOPEC's Green Community Choice option. As a member of the Green Community Choice program, the electricity for our community's default electric aggregation is backed by Green-e® certified Renewable Energy Credits (RECs) for 100% of the electricity used by enrolled customers. This makes it easy and convenient to support renewable energy development while taking advantage of being a member of our community's chosen electric aggregation program. Individual residents and small businesses can still choose to participate in any of NOPEC's other rate options as well, including Fixed Term Rates, a Monthly Variable Rate, and the Standard Program Option.

For more information and to compare rates, visit nopec.org/electric. If you don't want to enroll in the electric aggregation, you must return the opt-out form attached to your enrollment letter to NOPEC by mail or by fax to 440-774-4422 by May 8, 2026.
